

10 MHz REFGEN

RX10 provides 10 MHz reference clock for downstream & upstream communication Systems. The Solution comes as 19" Rack Mountable 1U chassis with redundant AC Power supplies.

Key Features:

- Input Power: 110V-230 V AC/
- 50 Hz
- PSU: Dual redundant.
- Output Port: 50Ω BNC
- Output Amplitude: 10dBm
- Stability (Temperature): ± 10 ppb
- Stability (Voltage): ± 3 ppb
- Phase Noise Meets or exceeds IESS 308/309
- Harmonic: -35dBc or better
- Ageing : $< \pm 1$ ppm over 20 years
- Chassis: Aluminum 6082-T6
- Environmental: EMI/EMC (MIL 461-E) and Vibration Qualified
- Humidity: 95%
